## Airbrush Painting Techniques (Modelling Manuals)

This book is designed to impart the techniques of using this effective tool quickly and easily. All three types of airbrush are examined and explained in simple terms. The title also boasts an excellent section on actually using the airbrush, and studies in depth the painting of four different miniatures. Clear photographs are taken of the painting process on each different model, showing all sorts of exciting techniques. Methods of lightening and darkening, representing camouflage and weathering and mixing exactly the right colour are all explained. A book that will suit both complete beginners and those wanting to get more out of their airbrush.
