Listeria monocytogenes: Pathogenesis and Host Response

Howard Goldfine, Hao Shen

Listeria monocytogenes: Pathogenesis and Host Response Howard Goldfine, Hao Shen

This volume includes research from the studies at the molecular level on the pathogenesis of *Listeria monocytogenes* and the response of the host to its infections. During the past twenty years *Listeria monocytogenes* has emerged as one of the most intensely studied bacterial pathogens. New windows are constantly being opened into the complexity of host cell biology and the interplay of the signals connecting the various cells and organs involved in the host response. As revealed in many of the chapters in this volume, the study of *L. monocytogenes* has already provided major insights into eukaryotic cell biology.
