As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old.

Berk presents the most important classic and emerging theories in an especially clear, coherent, engaging writing style, with a multitude of research-based, real-world, and cross-cultural examples. Strengthening the connections among developmental domains and highlighting the application of theories and research to the real world, this text presents the most important scholarship in the changing field of human development.
