A Singular and Whimsical Problem (Herringford and Watts Mysteries) Rachel McMillan

Christmas, 1910. Merinda Herringford and Jem Watts would be enjoying the season a lot more if they weren't forced to do their own laundry and cooking. Just as they are adapting to their trusty housekeeper's ill-timed vacation, they are confronted by the strangest mystery they've encountered since they started their private investigation firm.

In this bonus e-only novella, what begins as the search for a missing cat leads to a rabble-rousing suffragette and the disappearance of several young women from St. Jerome's Reformatory for Incurable Females. From the women's courts of City Hall to Toronto's seedy docks and into the cold heart of the underground shipping industry, this will be the most exciting Christmas the girls have had yet...if they can stay alive long enough to enjoy it.
