*Principles of Mucosal Immunology* is designed for graduate students and postdoctoral fellows, researchers in immunology and microbiology, and medical and dental students. It presents the basic and clinical aspects of the mucosal immune system, focusing on the major components of the mucosal barrier—the gastrointestinal, upper and lower respiratory, ocular, and genitourinary mucosal immune systems. Topics include the development and structure of the mucosal immune system and its cellular constituents, host-microbe relationships, infection, mucosal diseases, and vaccines. *Principles of Mucosal Immunology* is sponsored by the Society for Mucosal Immunology and is written by internationally recognized leaders in the field.
