So much depends on how you look at things: Are you a glass-half-empty person, or do you discover advantages where other people find only weaknesses? When it comes to raising healthy, happy kids, positive encouragement and support can work miracles where attempts to change and control create frustration and resentment. In her first book, *The Gift of ADHD*, psychologist Lara Honos-Webb offers a positive, strengths-affirming new way to look at kids who present behaviors associated with attention-deficit / hyperactivity disorder (ADHD). Instead of struggling to “tame” your easily distracted child, she shows you how to appreciate your child’s creativity, sensitivity, and passion for living. In this book, she develops the ideas from *The Gift of ADHD* into 101 simple and engaging activities you can use to develop your child’s unique strengths.

The chapters of the book explore ways you can shift your thinking about different aspects of ADHD. Each starts with a short discussion of how a particular challenge can be reconceived as a strength. After that, the book dives into fun and positive activities you and your child can do together—often in just a few minutes—to help develop and reinforce the gifts of ADHD.
