Fortune's a River is the most authoritative and readable account to date of just how British Columbia became British and how Oregon, Washington and Alaska became American. By the closing years of the 18th century, the stage was set for a major international confrontation over the Northwest Coast. Imperial Russia was firmly established in Alaska, Spain was extending its trade routes north from Mexico, Captain James Cook had claimed Northwest America for England and Captain Robert Gray had claimed the Columbia River region for the United States. Open warfare between Spain and England was narrowly averted during the Nootka Sound Controversy of 1789-1794, and again between Britain and the US in the War of 1812, when a British warship seized American property in Oregon.

In *Fortune's a River*, noted historian Barry Gough re-examines this Imperial struggle for possession of the future British Columbia and fully evokes its peculiar drama. It turned out the great powers were reluctant conquerors in this area. Russia and Spain withdrew of their own accord. Britain was in a position to dominate, but couldn't be bothered. The US vaguely wished to fulfill its manifest destiny by securing the Northwest Coast, but it was not a priority. In the end the battle was carried on by private enterprise and individuals of vision. Alexander Mackenzie established an overland route to the coast and with his partners Simon Fraser and David Thompson, set up a network of fur trading forts south to Oregon. US president Thomas Jefferson countered by sending out the Lewis and Clark expedition to strengthen American claims and an American entrepreneur, John Jacob Astor, established a lonely US outpost at Astoria. Gough examines each of the players in this territorial drama, bringing them fully to life and vividly recounting their hardships and struggles. *Fortune's a River* is a major historical work that reads like a wild west adventure.
